- Installing and Configuring Computer Systems - TESDA, 2025
- Introduction to CSS - TESDA, 2025

Projects / Academic Works
- **CircuLink – Room Reservation and Management System**

Developed a web-based room reservation system using the MERN stack (MongoDB, Express, React, Node.js). The system allows users to reserve rooms, check real-time availability, manage schedules, and receive notifications. Implemented role-based access for users and admins, dynamic room management, and automated email updates.

- **Portfolio Website**

Designed and developed a personal portfolio website showcasing projects and skills using React.js and Tailwind CSS, focusing on responsive design and interactive UI components.
